BULL SALE '09

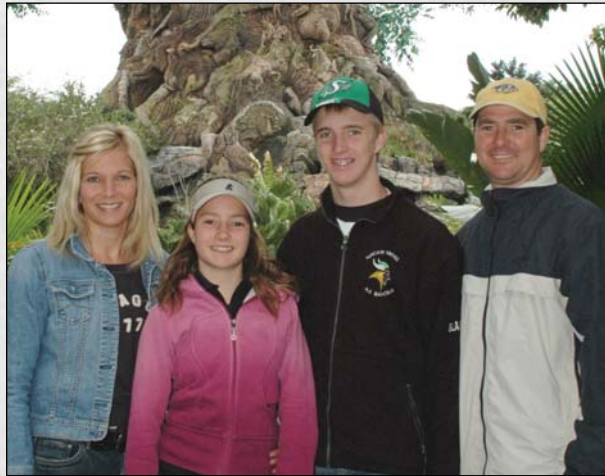

Jackson Cattle Co. Sale Facility Sedley, SK

Pursuit of EXCELLENCE

Kevin & Noreen Blair and family

Darren & Deb Blair and family

Blairs.Ag Cattle Co. was Premier Exhibitor at Saskatoon and Brandon

Welcome to the sale

The Blair family has deep history in Agriculture. We are a 3rd generation Integrated Ag Solution operation with the 4th generation pushing us from behind. We have generations of experience in purebred livestock and grain production.

We are very excited to be an integral part of the future of the Angus breed in North America and look forward to the challenges and rewards that will come with that vision.

Our family believes very strongly in strategic partnerships and has enjoyed success over the years because of those trusted partners. We are very excited to have the opportunity to include some very important partners in our 1st Annual Bull Sale.

The sale name "Pursuit of Excellence" also serves as a mission statement of sorts. We are committed to making a difference in the Angus breed for both our commercial and purebred customers' benefit. We will do our best to help shape the future of the livestock industry by showing unprecedented commitment to genetic improvement.

We will evaluate new technology like Igenity's DNA markers and they are available on the Blairs.Ag cattle in this catalog.

Embryo technology and AI are and will continue to help us with breed improvement, and we will commit to the most rigorous culling criteria in the industry. We have implemented a black/red carrier program to help with expansion of the Red Angus gene pool.

We are fortunate to have two very important families play extremely important roles in our vision for the future. We would like to thank our Herdsmen – Chad & Carissa Haaland and our ET program team – Levi/Carmen and Chance Jackson.

We are committed to a team approach and therefore have assembled a "Genetic Advancement Team" that helps us with all our breeding, selection and marketing decisions. Thanks to Kelly Schmidt, Chris Schmidt, Patty Smith and Craig Blair for their input into that team.

At Blairs.Ag Cattle Company we have two separate calving periods with our ET calves coming in Feb and our main cow-herd calving in April/May. In the future we will be selling all eligible bulls from our ET program as yearlings as long as they are born prior to March 15, and all calves born after March 16 will be sold as 2-year-olds.

Two-year-olds will make up the majority of our sale offerings as we believe that properly developed 2-year-olds are the future. They will breed more cows or heifers and will outlast yearling bulls. Feel free to give us a call about our philosophies on bull development.

Respectfully Yours,

Kevin & Darren Blair

Guest Consignors

Jackson Cattle Co is a family owned operation consisting of Levi and Carmen Jackson, and their children Dakota and Chance. We still maintain a small herd of Angus cattle in partnership with our good friends, George Leier, of Sedley, and Ted Ricci from Washington. We are very pleased to be able to work with the whole Blairs.Ag crew, and are managing their ET program and sale bulls. Visitors are always welcome at JCC.

Levi, Carmen, Dakota and Chance Jackson

Kenbert Acres is excited to be part of the Blairs.Ag and Guests "Pursuit of Excellence" Bull Sale. Our offering this year consists of top quality 2-year-old bulls that we are pleased to say come from our herd. We believe in raising good quality, easy keeping, easy fleshing, quiet disposition, hardworking, and long lasting animals. Our animals go through a tough selection process, and only the best of the best stick around for sale or replacement animal. We use top of the line genetics and are branching into embryos as well. Staying on top of the many changes happening in the cattle industry is not an easy job, but we try to keep pace with the changes that will fit in with our program while making our animals better in the process. Take a look at what we have to offer and we hope it fits in with your breeding program. We stand behind our product, and if you have any problems, please let us know. Once again, thank you for coming to the sale.

Herb, Donna, Tami-Lynn, Tonja, Terrell, Tobia and Teresa Friesen

Michelson Land & Cattle is a family operation owned by Shane and Alania Michelson. We are passionate about both the purebred Angus business and the grain industry. Our program is designed around identifying new leading edge genetics to help shape the future of the Angus breed. We are excited to join the Blairs.Ag team in the "Pursuit of Excellence".

Shane & Alaina Michelson

Nexera Land & Cattle Co. is a family operation that is owned by Kelly & Paula Schmidt and our children Hadley and Tate. We are excited to be a part of a sale of this caliber, with breeders that share our same goals. We believe in producing sound, structurally correct bulls with performance and good hair while maintaining ease of birth and excellent vigor. Please join us on April 8th and join in our "Pursuit of Excellence."

Kelly & Paula Schmidt

Rocking S Ranch is the partnership of Shawn and Patty Smith from Nokomis, Saskatchewan. The herd consists of commercial and purebred Red and Black Angus cattle. Our focus is to produce cattle that are functional for purebred and commercial cattlemen and can perform in real world conditions. Our purebred herd is managed alongside our commercial herd and must be able to perform under those conditions. Our strong commercial cattle influence has guided us to produce purebred Red and Black Angus cattle that we feel have strong maternal traits with a moderate frame and progeny that can be extremely efficient in a breeding program or in a feedlot. We background all of our commercial calves and finish about 50% of them, so we have feedlot and actual carcass data on our cattle. Most recently, we were pleased to exhibit the Champion Pen of Bred Heifers and Champion Pen of Five Backgrounder steers at Canadian Western Agribition. We are pleased to show our herd at anytime.

Shawn and Patty Smith

Here they are! Three tremendous bulls from a very successful flush at Nexera. They are sired by Semex's power bull MC 2500 and out of our straight Canadian donor "Double AA Bella." Bella was our pick at the Double AA dispersal and has exceeded all expectations. She passes on exceptional hair, fleshing ease, and phenotype second to none. Purebred or commercial, these bulls will do it all.

Here he is! Calving ease and much more! 113U was the Masterplan calf on Roxie 20S when they were slapped champion female in Brandon this fall. He has it all – a great dam, a proven calving ease sire, huge testicles, dark cherry color and as Levi would say, "he has never taken a bad step in his life." His EPDs are awesome and all in an 82lbs BW. If this was not our first sale, this bull would NOT be for sale. Watch for his dam at the World Angus Forum in July with her Red Ter-Ron Prowler calf.

SALE FEATURE – Terms to be announced sale day.

If you are looking for a Red Angus bull with a very moderate birth weight, extra muscle and bone - Triton is your bull. 167T has stood out right from birth with his muscle shape, extra bone and quiet disposition. 167T's mother - Patrice 167N is a female we purchased as an open replacement heifer from Crescent Creek Angus and she is fault free; moderate framed with a perfectly square udder, depth of body and very feminine. You can scratch Triton's mom in the pasture so you know he comes by his quiet disposition honestly. Triton is a true birth-to-weaning curve bender - you know he'll sire some calves with weight in the fall.

Look at the 84lbs actual birth weight and 810lbs 205D weight. This bull is long spined, smooth fronted with a dark red cherry haircoat that's thick and long haired - perfect for those calves you want to sell in the fall. 15T's dam has produced a bull calf every year and her bulls always come to the top. She is a moderate framed, deep bodied female, dark cherry red with an incredibly quiet disposition, excellent udder with nice small teats. If you are looking for a bull to add pounds at weaning or to produce top quality replacement females 15T will fit the bill.

Tahoe 30T is a heifer bull extraordinary from a great Bomber cow. He posts a -2.2 BW EPD and a 77 lb actual. Integrity is well proven for calving ease and for producing dark red females with great udders. Integrity's dam is an elite cow and is off the great Towaw Indeed 104H that has raised so many great females for Six Mile Red Angus. Integrity is now deceased but we will continue to use him through AI to produce calving ease sires. A paternal sister was 1st in class at the 2009 Denver National Stock Show.

9T was our pick of the 2007 calf crop. We wanted to show Tankard in 2007 but are committed to a 2-year-old program and weren't prepared to treat him different from the rest. This is the first try for a first calf heifer we purchased from Jackson's dispersal. Not only did she hit on her first try but her second calf is a Destiny son that is the best calf in our pen for next year's sale. She is currently being flushed. We wanted to test Tankard, so we bred him last year to one of our World Angus Forum heifers. She had a fantastic heifer calf that will be a part of our Forum show team. A pedigree with a twist, a calving ease specialist and all from a great cow family. Look at his BW EPD. PICTURE pg11

Tulsa 8T has a pedigree with a twist. There are very few Avalanche 381 bulls in Canada. 8T's dam Sandy 885E is a power cow like no other. She probably has sired more sale bulls for Jackson's than any other cow. She is a tanky cherry red cow with incredible rib shape. When it comes to weaning time, 8T calves will outperform all others. Excellent EPD's and proven genetics here. Recommended for cows.
