2014

# 2014

We are proud you bring you the 2014 version of the Pursuit of Excellence Sale. Our focus has always been and continues to be on the production of bulls for commercial cattleman. The 2014 offering is full of bulls with extremely soundness and performance and as you look the catalog you can be confident that calving ease is a critical selection criteria in our program. We are proud of our commitment to producing 2-year-old bulls and are confident that whether you are able to attend the sale or purchase through one of the sale reps you will be extremely impressed with your purchase. We are now experiencing excellent prices in all areas of the beef industry and now is the time to ensure your program is firing on all cylinders. We look forward to visiting with you about the sale offering and we will see you on sale day.

Sincerely,  
Kevin Blair, Blairs.Ag Cattle Co.

# quest Consignors

**Jackson Cattle Co.** has been involved with the Blair crew since 2008 and have been very honored to have been a part of their program. We currently manage all of their sale bulls from weaning to sale day, as well as handle a group of Black Angus females for them. Kevin and his crew have not only been excellent people to work with, but also have become great friends as well. Chance represents the second generation here at JCC. He is building a very select group of Angus females, and is committed to being involved in this great breed for years to come. It can only get better. We hope to talk with as many as you can on sale day, and if you need any more info or just want to see the cattle please call or stop in.

Levi, Carmen and Chance

**Mainstream Genetics** is a family owned operation; Chris and Jasmine Schmidt, alongside their children, Davis and Jenna, run a mixed farm near Watrous, SK. We are passionate about all facets of Agriculture, whether it is the grain industry, the livestock industry or the future of our youth . . . and the common theme in all those facets, is the Pursuit of Excellence. We pursue a career in agriculture with the hopes of growing more bushels to help feed the ever-increasing world population. We pursue a lifestyle in the livestock industry and our goals have always remained the same; to produce sound, functional cattle that will add pounds to your calves and strengthen your bottom line. As Davis and Jenna get older and are more actively involved in both 4-H and the Canadian Junior Angus Association, we pursue the future of our youth and the future of the Agriculture industry. We are excited to partner with Blairs.Ag and invite you to join us in the Pursuit of Excellence on April 1.

Chris, Jasmine, Davis & Jenna Schmidt

**Nexera Land & Cattle Co.** is a family run operation that is owned by Kelly & Paula Schmidt and their two children Hadley and Tate. We are again excited to be part of a sale of this caliber, with breeders that share our same goals. We believe in producing sound, structurally correct bulls with performance and good hair, while maintaining ease of birth and excellent vigor. Please be our guest on April 1 and join in our "Pursuit of Excellence."

Wiley Post 305Z is an outcross to our program. We toured the pastures at Michelson Land & Cattle a few years ago and his dam was our pick of the entire herd. We unfortunately lost the Lassie Pride 8261 donor so this is the last of her genetics. She had perfect phenotype and that presence that is rare. Expect calving ease from Wiley Post 305Z and calves with an incredible look and a cool hip.

Performance and calving ease is a rare combination in a herd bull, but when you combine Kodiak and Dutch that is exactly what you get. The Geis 114 99 grandam is maybe one of the best donors ever at SooLine Cattle Co. Step up and take a good one home here.

Thor 234Z is a calving ease bull that comes in a moderate, highly maternal package. Thor was used heavily in the SooLine Cattle program and the Thor daughters make great cows. Here is one for those who like to keep replacement females.

40Z is a smooth made bull that is stout, deep ribbed, strong topped, and has a tremendous hip. He displays natural muscling and adequate bone, and combines it in a moderate frame. He is out of our herdsire, EXAR Raven 8096, who produced bulls selling at the top end of the Pursuit of Excellence Bull Sale last year. His dam, Bushs Blackbird Gal 8120, comes from a program that is well-known for producing easy-fleshing cattle that are low maintenance and go out and work in all conditions. 40Z is ready to go out and work for you and we believe he will produce calves that are the right type and kind for today's industry.

The flush that produced Fatal Attraction 1W was a special one. The Grandam Bella is what I have stated is the best Angus cow in the country. The entire maternal side of this pedigree is one that makes the hair on the back of my neck stand up. This Northern Improvement son will produce females that will make you over the top excited that I can promise. A maternal brother is the \$12,500 BNC Game Changer 1Y that leads off our junior herdsire group and is a highlight in our calving ease semen sire group.

A good strong 2-year-old bull. His sire MICH Steel 2X was a bull we purchased from Shane Michelson out of the 2010 Pursuit of Excellence Sale. The dam of this bull is a Net Worth daughter who is a deep sided, stout made female with an excellent udder, and has been a standout producer for me. She has produced a sale bull for me every year, with sons being sold to Tracy and Trevor Gibson, and Remington Land and Cattle.

Another great embryo power bull off the OK 30S cow and the sire of many high sellers in the tremendous Schaff Angus program – SAV 707 Rito 9969. NLC 19A defines the words power and performance and is as deep sided and soggy as you can make one, great hair and big scrotal make him that much better.

### Lots 23 & 24

Direct embryo brothers out of the highly regarded HF Prowler 43U. Everyone knows that behind every good bull there has to be a good mother, and that is definitely true here. We had the opportunity to hand pick some top cows from OK Angus and moved the 30S cow into the donor pen the first year we owned her. These two sons are high performance, big scrotaled bulls with excellent hair coats, and are the kind we all strive to raise year after year.

We forgot to give this calf a name, but he doesn't need one for you to notice him. A definite herdsire prospect, he's hard to find a hole in. He's been a favorite of everybody who walks through the pen. We used the Right Answer bull on our heifers and he didn't disappoint us – he is on the most used calving ease sires list for Genex, and is a leading seller. Combine the Right Answer and Motive, and 5A has calving ease built right into him. Then he combines this with the hard to find performance, pedigree, maternal power, eye appeal, with a great set of numbers. He's the complete package. He ranks in the top 10% of the breed for calving ease, 4% for WW, 3% for YW and 6% for milk. His dam is an outstanding 2-year-old Motive daughter whose mother is the dam of CCCJ 15A. This bull is a must see on sale day.

You won't find many bulls that are stouter, hairier or soggier made that this Brandname son. He's an absolute tank, right full of red meat. His dam is a Cudlobe Yellowstone 80M daughter out of the very first Angus female I bought. The 80M daughters are a prized commodity and 2W is one of the very good ones. She showed at the side of her mother in 2009 and was 2<sup>nd</sup> in class to the Supreme pair that year. SAV Brandname was the high-selling bull at Schaff's sale in 2010 for \$156,000. A powerful pedigree on this meat machine.

Another growthy, high performing Thriller son. These Thrillers can really punch down the scale. This rascal should be able to get out and cover a lot of cows for you. With his higher birth weight, he is not recommended for heifers, but used on cows he will be able to put those extra pounds on your calves, and with the price of calves presently that can translate into substantial dollars. His dam is a good Freightliner daughter and was part of the donor program at Mountain View Farms.

This is the last yearling bull in my offering, and I'm really proud of the entire group. I've been very selective of what I've put in the sale and feel they will all do a great job for whomever gets them. 21A is a direct son of Cudlobe Yellowstone 80M. You won't find many of these 80M sons for sale. The 406W cow is a deep, broody female with an excellent udder. A very strong maternal package in this bull and you'll want to keep all of his daughters.

Kargo 55Z is going to be very easy to find on sale day and for a very good reason – his dam is AWESOME and her first calf we took to Denver and then sold to Rust Mountain View Ranch. I think the future is bright for this herd sire.

Priscilla 44Z, paternal sister to Lots 36-47

When you go into the pens on April 1, Kargo 47Z will catch your attention for two reasons. First you will notice his incredible herd bull look, and then his huge rib shape will draw you in. When you look into the maternal side of the pedigree, take notice of the Ruba 7H donor that works in Australia with GK Angus. I tried to buy the 7H cow at the Jackson dispersal but Brylor Ranch and GK had other plans.

Here is a big framed, long sided, strong topped bull sired by Alliance, who is the senior herdsire for Bar E-L Angus. Out of a 10-year-old cow, 30M is a Bomber daughter, who was the cornerstone of our Red Angus herd. You should have some longevity in his progeny.

# Corner Creek Cash

This is one of only two Cash sons to sell this year in the Pursuit of Excellence '14 sale. Cash offspring continue to demand attention across the world and they are early maturing with high performance and great hair. The Lulu 402S dam is a part of the Polzin Cattle Co. donor program in Minnesota.

261Z is the last Premonition son to ever sell. We had to put him down and this rugged commercial son will work in almost any program.
