WELCOME TO THE SALE

2010 has been an interesting year to say the least. Mother nature has really showed us that she has a strange sense of humour. Farmers and ranchers have shown their resilience and we are all looking forward to 2011.

Our program continues to advance and we want to thank the 2010 buyers who put their trust in our program and shared in our vision for the future.

The Blair family has deep history in Agriculture. We are a 3rd generation integrated ag solutions operation with generations of experience in purebred livestock and grain production.

We are very committed to the future of the Angus breed in North America and look forward to the challenges and rewards that will come with that vision.

Our family believes very strongly in strategic partnerships and have enjoyed success over the years because of those trusted partners. We are again excited to have the opportunity to include some very important partners in our Bull Sale.

The sale name "Pursuit of Excellence" also serves as a mission statement of sorts. We are committed to making a difference in the Angus breed for both our commercial and purebred customers' benefit. We will do our best to help shape the future of the livestock industry by showing unprecedented commitment to genetic improvement.

Embryo technology and AI will continue to help us with breed improvement, and we will commit to the most rigorous culling criteria in the industry. We have a strategic black/red carrier program to help with expansion of the Red Angus gene pool and are committed to that promise.

We are fortunate to have two very important families play extremely important roles in our vision for the future. We would like to thank our Herdsmen – Chad & Carissa Haaland and our ET program team – Levi/Carmen and Chance Jackson.

We are committed to a team approach and have assembled a "Genetic Advancement Team" that helps us with breeding, selection and marketing decisions. Thanks to Kelly Schmidt, Chris Schmidt, Patty Smith and Craig Blair for their input.

In the fall of 2010 Travis MacPherson joined our team and is responsible to manage our show and sale cattle on a day to day basis in Lanigan. We are proud to introduce Travis and excited to have him as a key part of our team.

At Blairs.Ag Cattle Company we have two separate calving periods with a group of ET calves and bred heifers calving in February and our main cowherd calving in April/May. We sell all eligible bulls that are born from the early calving program as yearlings, and all spring born bulls are sold as 2-year-olds.

Two-year-olds will make up a significant part of our sale offering in the future as we believe that properly developed 2-year olds are the future but we will always have early born calves from our ET program that will sell as yearlings. Feel free to give us a call about our philosophies on bull development.

Respectfully yours,

Kevin Blair and Darren Blair

GUEST CONSIGNORS

Jackson Cattle Co is a family owned operation consisting of Levi and Carmen Jackson, and their children Dakota and Chance. We are very pleased to be able to work with the whole Blairs.Ag crew, and are managing their ET program and sale bulls. Visitors are always welcome at JCC.

Levi, Carmen, Dakota and Chance Jackson

Kenbert Acres is excited to be part of the Blairs.Ag and Guests "Pursuit of Excellence" Bull Sale. Our offering this year consists of top quality 2-year-old bulls that we are pleased to say come from our herd. We believe in raising good quality, easy keeping, easy fleshing, quiet disposition, hardworking, and long lasting animals. Our animals go through a tough selection process, and only the best of the best stick around for sale or replacement animal. We use top of the line genetics and are branching into embryos as well. Staying on top of the many changes happening in the cattle industry is not an easy job, but we try to keep pace with the changes that will fit in with our program while making our animals better in the process. Take a look at what we have to offer and we hope it fits in with your breeding program. We stand behind our product, and if you have any problems, please let us know. Once again, thank you for coming to the sale.

Herb, Donna, Tami-Lynn, Tonja, Terrell, Tobia and Teresa Friesen

Michelson Land & Cattle is a family operation owned by Shane and Alania Michelson. We are passionate about both the purebred Angus business and the grain industry. Our program is designed around identifying new leading edge genetics to help shape the future of the Angus breed. We are excited to join the Blairs.Ag team in the "Pursuit of Excellence".

Shane & Alaina Michelson

Nexera Land & Cattle Co. is a family operation that is owned by Kelly & Paula Schmidt and our children Hadley and Tate. We are excited to be a part of a sale of this caliber, with breeders that share our same goals. We believe in producing sound, structurally correct bulls with performance and good hair while maintaining ease of birth and excellent vigor. Please join us on April 5th and join in our "Pursuit of Excellence."

We lost a special bull in Red Ter-Ron Prowler 833T. This will be the last of the Prowlers except for a very small handful in next year's sale as 2-year-olds. I think we have found a perfect match for Mulberry daughters in Prowler. The HLR Lass 1T cow is the Mulberry daughter off the great Lass 41N. We sold Lass 1T in our first Red Roundup for \$21,000 (half interest) to SooLine Cattle Company. The Prowler name will live on in BBC 213X and his combination of power and predictability makes him very interesting.

We have talked a lot about the great Lass 41N but we have forgotten to mention that the real credit should go to her dam Red JCC Lass 63K. We purchased Lass 63K with Nexera Land & Cattle at the Jackson Dispersal and she has worked her tail off since then, proving her worth and has produced 24 offspring. It is rare to have the opportunity to select from six full sibs that are off such a unique genetic package. The consistency in this group is unbelievable and you will need some time to make your pick. Two full sibs also sold in last year's sale to Shantz Farms and Gormlea Farms. Here is an opportunity you won't want to miss!

Reload 3X is a very special to us because he is out of the famed 72K cow that we purchased at the Lucky C dispersal. 72K has proven herself with the New Trend 40T son that we used and then sold through this same sale. You will see that Trend 40T is also the sire of Lots 27 and 29 in the 2-year-old section. This year 72K enhanced her value with her natural calf Red Blair's Reload 3X and with an ET calf off Red Corner Creek Cash 2R that sold through our Class of '10 sale for \$6600. Take a look at the total outcross pedigree of 72K. If you want them good and outcross, then here he is.

We can't say enough about this breed-changing candidate. Reload 210X combines the great Red Ter-Ron Reload with the world famous Red JCC Lass 41N. Lass 41N was 2005 National Champion Female, 2006 Reserve Champion at CWA, she is the dam of (\$20,000) Red Blair's Daytona 116U, (\$21,000) Red HLR Lass 1T, (\$6600) Red Blair's Talladega and the (\$9500) Red Blair's Lass 209X. She is the full sib to (\$6750) Red Blair's Lass 212W and is also a full sister to Lots 3, 4, 5, 6, 7, and 8. Red Blair's Reload 210X is the kind that will breed power and predictability into your program.

If you want a herd bull that is cherry red, soft made and full of maternal in his pedigree, then here is the answer. He has been a favorite of many all summer and will not disappoint. Integrity 17M has proven himself to be an easy calver for many years and when you combine Integrity, Gladiator and New Trend 22D you have a combination that works. Red Blair's Inception 12X daughters will be the kind to build a herd around. Check out the EPD's.

You can start to see a pattern here as we have another descendant of the great Lass 41N. When Lass 41N was slapped National Champion in 2005, Lass 7R was the Integrity calf at side. You can see that the combination of Mambo, Integrity and now Prowler has come together in a herd bull that will be on everyone's "Top 5" list. I am not sure if you will find a more balanced set of EPD's in a power bull genetic package. You can breed Prowler 214X to cows or heifers and he will raise replacement heifers and power bulls. Take a serious look!

The cattle business is about people and cattle and this year the two came together when we had the chance to buy the top cow/calf pairs from Neil/Gail Carruthers. This Game Day son came off the trailer with his Net Worth dam and we immediately knew we had something. If you want a calving ease bull with cow bull performance then Carruthers Game Day 18X is going to blow you away. You will be impressed with his power, his depth, his hair, his bone and especially by the strength in his skull. Combine all that with breed leading EPD's and you have a neat deal.

Here is a flush group of brothers bred for muscle, performance, and maternal value to make a lasting contribution. They are ideally suited for any cowman wanting to add uniformity and consistency to his program. Their full sister was the 2010 National Champion Female in Edmonton and Canadian Western Agribition Champion Female as well. Annie K is the epitome of a perfect Angus cow, balancing powerful bloodlines with femininity and maternal excellence. G13 Steel is a sire who adds growth and performance and an abundance of style. These brothers are stout, hairy and deserve any cattleman's attention serious about adding dollars to their bottom line and females to their replacement pen.

Here is another bull that came with dam from Neil/Gail Carruthers. This calf has been a favorite of mine because of the sheer power, hip shape, bone and foot size. His dam is a cow that I love to show visitors. She is a pure power VRD cow that walks the pastures proud. We are very excited to get her into our flush program and look forward to her 2011 New Generation 6107 calf. If you need a cow bull to add hip and put lbs on the scale then the hunt STOPS HERE!!

Another good bull from the Carruthers program. Look deep into this pedigree and you will see that the dam of GAIC 56X is also the grand dam of the GAIC 18X (Lot 13) bull. The Angus breed is built on cow families and this one is special. The pedigree is outcross and the bull is powerful. Enough said!

MICH Wallstreet 12X is a stylish, stout son of SAV Wallstreet. He is a beautifully made bull that will add length of body, hair and maternal strength to your program. His 3-year-old dam is an extremely hard working young cow going back to the famous SAV 8180 Traveler 004 bull. A maternal brother sold last year to Robert Oakes of Simpson. 12X would be recommended for use on heifers with his low birth weight and make up.

A great opportunity to select genetics from the dam of the greatest Red Angus bull of the decade and maybe the greatest Red Angus bull ever. Fayette 8G is the dam to the great Red Finesline Mulberry 26P. This kind of opportunity is extremely rare. If you want consistency in offspring but you also need extreme calving ease, then you have found the answers to your prayers. These five full sibs are like peas in a pod and are loaded full of maternal traits. Don't be surprised if someone buys them all. Imagine turning five full sibs off the dam to Mulberry out with a group of Simmental or Charlois cross cows. This is a cowman's dream.
